

29th January, 2026

SECCO Disbursement Report as at 29th January, 2026

This report presents an analysis of the performance of SECCOs during the 2025/2026 groundnut trade season, using verified delivery and financing data up to 29th January 2026. It highlights delivery progress, which explains the rationale for withholding additional float from SECCOs that have not yet reached the minimum delivery threshold of **88.5%**. As at 29th January 2026, a total of **D287,720,000** had been disbursed to contracted private traders for the purchase of **7,193.00** MT of clean (screened) farmers' stock, in addition to payments of **D1,229,013,387.84** made to CPMS, bringing the total value of groundnut purchases to **D1,516,733,387.84**. The report also confirms that all high-intake NFSPMC depots (Saaro, Barra, Kerewan, Kaur and Basse South) are operating 24 hours daily to support continuous intake, decongest SECCOs and maintain smooth logistics.
